

Certified marine & environmental inspection for The Bahamas.

Orion Enviro Marine Services (OEM) provides marine cargo and P&I surveying, non-destructive testing, hazardous material handling, gas free certification, mold remediation, health & safety training, and shoreline demolition & recovery for marine insurers, shipping lines, pharmaceutical manufacturers, industrial contractors, and ship repair yards. Every engagement closes with independent, fully documented reporting prepared to the standard insurers expect.

CORE SERVICES

— Marine Cargo Surveying

Damage assessment, stowage verification, loss-prevention documentation.

— Non-Destructive Testing (NDT/NDI)

RT, UT, dye penetrant, MT & thickness testing that catch defects before failure.

— Gas Free Certificates

Atmosphere testing clearing tanks & confined spaces for entry and hot work.

— Health & Safety Training

On-site training in hazmat handling, confined space entry & safety protocols.

— P&I Surveying

Condition, damage, and loss surveys for insurers, clubs, and shipowners.

— Hazardous Material Handling

Compliant identification, handling, and disposal — mitigating liability.

— Indoor Air Quality & Mold Remediation

Four-step protocol led by specialists with 29+ years of experience.

— Shoreline Demolition & Recovery

Demolition and recovery of storm-damaged structures, wreckage & debris.
